

# Latch-on-Pot Trellis with solar lights

The Latch-on-Pot Trellis is an attractive trellis combined with a utility handle to easily transfer plants.

- Both the trellis and the latch-on handle strands support climbing vines as they grow into the shape of the trellis
- Adding solar lights will light up the plants at night, add ambiance and outline the attractive shape of the trellis, solar lights are available in warm white or bright white and are pre strung on the trellis
- The trellis can be made into at least two unique shapes (see below)
- This product is manufactured in America from food grade quality recycled polypropylene (BPA-free) with UV inhibitors. It is recyclable.
- Available colors are Black, Green, Gray and Terracotta
- Ready to use. Clip on assembly, see detail page 2

Unassembled  
Latch-on-Pot  
Trellis with  
lights

Lights are
